

## Welcome to the first edition of RE+Source PRO Insider!

RE+Source PRO has over a thousand company profiles, 1,800+ products and 470 power systems use cases since the official launch in February of this year! Thank you for participating in this exciting new platform, aimed at moving the power system industry forward.

### 5 Tips to Generate Leads

RE+Source PRO's online platform affords you the opportunity to promote your company 24/7, 365 days a year. To get maximum exposure, utilize these five tips:

1. **Ensure your company profile is complete.** The more robust your profile, the more exposure you'll get in the AI search feature. Include office locations, team contacts, product spec sheets, case studies, and announcements/press releases to ensure maximum content for users to view and contact your team.
2. **Utilize the media toolkit to inform your customers** that your company is now on RE+Source PRO. Post in all social media outlets your company currently uses to maximize exposure. [Download media toolkit.](#)
3. Promote your participation when exhibiting at RE+ 25! Your booth number will appear next to your RE+Source PRO profile, allowing potential customers you meet onsite to find you all year long and view your products, case studies, team members, and more for a maximum event ROI!
4. **Tag partners that you work with on projects** in your company profile. Give viewers a better understanding of your network of product/service providers, which can build trust.
5. **Display your company QR code onsite** at RE+ 25! Attendees who visit your booth can scan it to view your company on RE+Source PRO, which gives you direct leads during and after the show.

## See RE+Source PRO in Action

This year at **RE+ 25**, you can do more than hear about the industry's most powerful sourcing tool—you can try it for yourself. Join us at the **RE+Source PRO Kiosk** and see how this platform connects you to the right clean energy products, suppliers, and solutions year-round.

During your guided on-site demo, you'll discover how to:

- Search products built for all power systems
- Access hundreds of companies on and off the show floor
- Learn how to plan your system designs with confidence

Stop by, test drive the platform, and see how it can save you hours of searching while giving you results you can trust. **Find the RE+Source PRO kiosks at CAESARS FORUM next to the Grid Edge Theater.**

**TRY IT OUT AT RE+ 25!**

## Want to Boost your Visibility?
